

Detroit Radiant Products Co.

## DX3L Deluxe Series

### Gas-Fired Single-Stage Infra-Red Heaters

Packed with quality features, the DX3L represents the highest in quality, single stage, low intensity tube heaters. Performance is enhanced through the use of a specially designed stainless steel burner and black coated titanium stabilized and/or aluminized coated steel radiant tube exchangers. The DX3L offers superior low intensity heat, performance and longevity.

#### Product Features

- Coated Titanium (150 MBH) or Aluminized (75 or 100 MBH) Combustion Chamber
- Coated Aluminized Radiant Tubes
- Highly Polished Aluminum Reflectors
- Tool-free access to controls
- Hinged doors
- Serviceability while unit is operating
- Separated air & combustion chamber
- Hot Surface Ignition with Flame Sensing Rod

## HL3 Deluxe Series

### Gas-Fired Patented 2-Stage Infra-Red Heaters

The HL3 Series, packed with quality features, is the most energy efficient infra-red tube heater available anywhere! Our Patented Two-Stage Technology, incorporated into the HL3 Series, provides more comfort while saving valuable energy dollars. In addition, the highest quality materials and construction features insure years of reliable and efficient operation. No other infra-red heater can match the performance and quality of the HL3 Series!

#### Two-Stage Technology

- 12% Minimum Fuel Savings (over single-stage)
- Infra-red) Faster Heat Loss Recoveries
- Improved Comfort Levels
- 35% Reduction in Equipment Cycles
- Design Protection Benefits

#### Product Features

- Black Coated Titanium (150 MBH) or Aluminized (75 or 100 MBH) Combustion Chamber
- Black Coated Aluminized Steel Radiant Tubes
- Tool-free access to controls
- Hinged doors
- Serviceability while unit is operating
- Includes HLRP Relay

Gas type for stock units - Natural. Propane-fired units available upon request from the factory.

See Page IH-2.0 for specifications and clearances

See Page IH-3.0 for additional accessories.
