

TITUS®

Model OMNI Architectural Square Panel

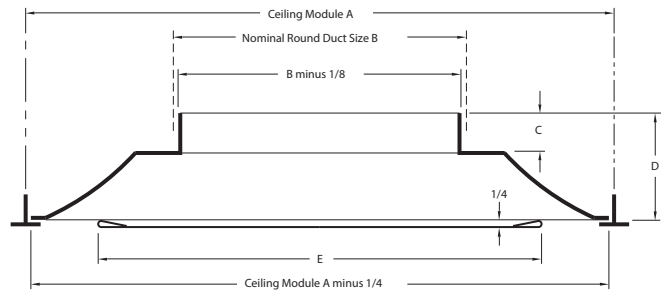

This Product Includes:

- Standard Finish: #26 White

- The TITUS OMNI diffuser satisfies architectural as well as engineering criteria. Its strong, clean, unobtrusive lines harmonize with the ceiling system, without sacrificing performance.
- The curvature of the OMNI back pan works with the formed edges of the face panel to deliver a uniform 360° horizontal air pattern, without excessive noise or pressure drop.
- The OMNI diffuser is an excellent choice for variable air volume systems. The air pattern remains tight and horizontal for effective room air distribution, even when the volume varies over a wide range.
- The face panel is constructed from 18 gauge steel. The edges of the face panel are formed to a radius for a solid, crisp appearance. The formed edges also stiffen the face panel and assure a straight and level surface.
- The face panel is held in place by steel rods that lock into the back pan. The panel can be removed from the back pan for easy installation of the diffuser or for access to the optional damper.
- Material is heavy gauge steel (18 gauge in the face panel).

Ceiling Module A	Nominal Round Duct Size B	C	D	E
24 x 24	6,8	1 1/4	3 3/4	18
	10,12,14,15	1 3/8	3 7/8	
12 X 12	6,8	1 3/8	2 3/8	9

Frame Type 3
Full Face (Lay-In)

Size 6 through 14 use the D-100 damper.
See page GRD-14.0 for TRM surface mounting frame details.
See page GRD-16.0 for damper details.

24 x 24 TRM frame = \$40.00 list
12 x 12 TRM frame = \$33.00 list
