

**TITUS**®

# Model ML-38 Linear Slot Aluminum Modulinear

**This Product Includes:**  
Standard Finish:  
#26 White border  
Black pattern controllers

- TITUS modulinear diffusers are designed for variable air volume systems. They project a uniform blanket of air that adheres to the ceiling even at low flow rates.
- Both the direction and volume of the discharge air can be adjusted gradually by moving the pattern controllers (see diagrams below).
- Full 180° pattern controller adjustment means there are no "lefts" or "rights." Specifying, ordering, and installing are simplified.

**Border Type 2A**

- Flange Border
- Concealed Mounting

Type	A	O'	D
